

Christmas Ornament Assembly Instructions

1. Gently fold along the green lines, and trim around the pink border line until your little house starts to take shape.
2. Add glue or tape on the side and bottom flaps, then press the sides together so your ornament feels cosy and secure.
3. Pop a battery-operated LED tealight inside and watch your ornament glow warmly.
4. Thread a ribbon, string, or twine through the hole at the top, and tie a loop so it's ready to hang.
5. Hang your new ornament on the tree, along a garland, or anywhere you'd love a little sparkle.

WARNING: Please use only a battery-operated LED tealight inside. It's safer and just as magical — never use a real candle.
